

## Revox speakers True studio sound quality

### Revox Mini G50

With the Mini G50, Revox is launching the smallest speaker in the G series as the ideal combination for all those who are short on space but don't want to be sold short on the music experience. Thanks to many years experience in the development of speakers, we have succeeded in raising the acoustics significantly, resulting in a bass reproduction that, when you take the small dimensions into account, will truly amaze you. With an ultra low-profile holder, the Mini G50 can also be mounted elegantly and discretely on any wall.
